

Terms and Conditions of Use — SalvadApp

Last updated: [Publication date — to be filled in at release time]

Welcome to **SalvadApp** (the "Application"). These Terms and Conditions of Use govern the relationship between the Developer of this Application (hereinafter "the Developer", "we", or "our") and the end user (hereinafter "the User" or "you"). By downloading, installing, or using the Application, you fully accept these Terms.

1. Terms of Use and Functionality

The Application provides a personal savings-goal management service (creating goals, tracking contributions, reminders, and progress statistics). The Application is designed to work entirely locally (offline) on the User's device and is available for Android devices through the Google Play Store.

The Application also allows the User, on an optional basis, to add an image to a goal's detail card, either by picking it from the device's gallery or by taking it with the camera through Android's own system features. This feature stays off until the User explicitly turns it on from Settings.

2. Age Requirement

Use of the Application is permitted only to individuals who are at least **14 years old**. By using the Application, you represent and warrant that you meet this minimum age requirement. The Developer assumes no responsibility for use of the Application by individuals under 14 in violation of this clause.

3. User Account and Backup Management

The Application does not require the creation of a user account on the Developer's systems, nor does it require login credentials.

The Application allows you to generate a backup file of your data, saved locally on your device. If you subsequently choose to manually copy or upload that file to a third-party cloud service (for example, Google Drive), you do so entirely on your own initiative, using your device's native tools. The Developer is entirely uninvolved in this process, has no access to your cloud credentials, and does not manage, view, or store such backup files.

4. Free of Charge

The Application is entirely free of charge: it does not include in-app purchases, subscriptions, or any form of payment for the use of any of its features. The Developer reserves the right to introduce paid features and/or advertising within the Application in the future; should this happen, these Terms and the related Privacy Policy will be updated in advance with a dedicated section describing the new feature in detail, the related payment handling, and/or the advertising providers involved.

5. Intellectual Property

All intellectual property rights related to the Application, including but not limited to source code, graphics, user interface, logos, and trademarks, belong to the Developer. The User is granted only a personal, limited, non-exclusive, non-transferable, and revocable license to use the Application on their own personal devices. Decompiling, reverse engineering, or duplicating the Application is strictly prohibited.

6. Limitation of Liability (Disclaimers)

The Application is provided "as is" and "as available". The Developer disclaims any liability for:

- Loss of data, goals, contributions, or information entered in the app due to device malfunction, uninstallation of the app, formatting, or loss of the phone. Being an offline app, there are no remote backups on the Developer's servers: preserving your own data is the User's sole responsibility.
- Direct or indirect damages arising from the app's malfunction or from notifications/reminders not delivered by the device's operating system.

7. Indemnification

The User agrees to indemnify, defend, and hold harmless the Developer, its collaborators, and partners from any claim, damage, cost, liability, or expense (including legal fees) arising from improper, unlawful, or unauthorized use of the Application by the User, or from a breach of these Terms.

8. Changes to the Application

The Developer reserves the right to modify, suspend, or remove, in whole or in part and at any time, features of the Application that are not strictly necessary to its core purpose of managing savings goals (for example, the optional feature to add images to goal detail cards), without this giving rise to any right to compensation for the User. Where reasonably possible, the Developer will communicate material changes in advance through the release notes of the relevant version published on the Google Play Store.

More generally, and always in compliance with applicable law and the User's non-waivable rights, the Developer reserves the right to modify at any time and at its own discretion the functioning, logic, interface, terms of use, or technical requirements of the Application, even substantially, without this creating any obligation to maintain previous features or any right to compensation for the User, subject to applicable consumer protection law.

9. Governing Law and Disputes

These Terms are governed by and interpreted in accordance with Italian law. For any dispute arising from the interpretation or performance of these Terms, the competent court shall be that of the Developer's place of residence or domicile, without prejudice to the non-waivable rights of consumers residing in the European Union to bring proceedings before the courts of their own place of residence.
